

Leaf Collection

Spring and Summer Leaf and Fine Yard Waste Collection

Leaves and fine yard waste must be at curbside by 7 a.m. on your collection day. Leaves for collection should not be placed in the traveled portion of the roadway where traffic would be impeded. Place leaves at a location away from any objects such as parked cars, low hanging tree limbs, catch basins, or drainpipes. It is important that leaves and waste are not placed in the actual ditch-line to prevent potential flooding caused by such a practice.

Sticks, rock, brick or any foreign type objects should be kept out of the leaves for pick-up as these type objects delay the collection process and can cause severe damage to the collection equipment.

Fall Leaf Collection

From the 2nd week of October to the 2nd week of March, only leaves are collected.
